**FRISCO MOVES TO EMERGENCY STAGE 4 WATER RESTRICTIONS:
NO OUTDOOR WATERING**

(July 13, 2005) A 60-inch North Texas Municipal Water District (NTMWD) water line feeding Frisco has been shut down due to a water leak. This moves Frisco residents into Emergency Stage 4 watering restrictions: no outdoor watering. All Frisco residents are being asked to curtail all non-essential water use, such as outside landscape watering.

NTMWD estimates repairs will be completed within 24 hours. Police and Fire have been asked to go through neighborhoods alerting residents to the problem. For more information, please call 972-335-5520 or visit www.friscotexas.gov.
